Cognizant Wins Multiple Awards at the 2018 International ICT Awards in the Philippines

Cognizant Digital Systems & Technology

Cognizant Technology Solutions Philippines Inc. won multiple awards at the **International ICT Awards 2018**, including Best Company of the Year and Best Company of the Year Providing Services for Health Information Management. Cognizant's leadership was also recognized as the Best C-Suite Team of the Year.

Instituted in 2007 by the Canadian Chamber of Commerce of the Philippines and the Information Technology and Business Process Association of the Philippines, the International ICT Awards is the most prestigious ICT Awards event in the Philippines, honoring Philippines-based organizations for their innovation, excellence, and contribution to the growth of the IT-BPM industry in the Philippines.

Cognizant was selected for the awards based on a number of attributes: the company's growth; size, quality and diversity of clientele; depth and breadth of competencies; and commitment and contribution to talent development, social initiatives, good governance and promotion of the Philippine Information Technology and Business Process Management (IT-BPM) industry.

Cognizant was honored with the 2018 **Best Company of the Year** award for being an inspirational role model for the IT-BPM industry, both for the business community in the Philippines, and internationally.

Additionally, the Best Company of the Year Providing Services for Health Information Management award was presented to Cognizant for the world-class healthcare-related services the company delivers from the Philippines to the international healthcare industry.

Cognizant's leadership team was awarded the Best C-Suite Team of the Year in recognition of its pioneering role in promoting excellence in Information and Communication Technology in the region.

Receiving the awards at a gala event in Manila, **Kamal Narang**, Country Head, Coginzant Philippines said, "We are proud to have won these prestigious awards and thank our customers, employees, and all other stakeholders for their support. These awards are a testament to the confidence our clients continue to place in us, and to the hard work and dedication of our talented workforce in the Philippines."

"Our operations in the Philippines form an important part of our integrated global delivery capability and growth strategy," said **Jayajyoti Sengupta**, Head of APAC, Cognizant. "The rich talent pool and vibrant growth ecosystem provided by the Philippines has propelled this growth."
