Cognizant Recognized by ISG as Paragon Provider of the Year

Cognizant Digital Business

Cognizant recently received an ISG Special Award for Paragon Provider of the Year at the inaugural ISG Paragon Awards for Americas. A finalist in all award categories, Cognizant was selected for the Special Award for making a significant contribution to the sourcing industry.

“This year’s Paragon Special Award, Provider of the Year, is different,” said Esteban Herrera, Partner, Global Leader, ISG Research. “As one of the largest advisory firms, we are constantly analyzing service providers for numerous industries, including Banking and Financial Services, Healthcare, and Manufacturing and Logistics. One of the most difficult things to do in the Digital and IT Services Industry is to achieve consistency. We see brilliant work from lots of service providers, but it is rare to see it reliably across many accounts. In Cognizant, we see a leader in digital transformation with very strong relationships and a great track record of delivery across its entire portfolio.”

“We are honored to receive this award from ISG,” said Vinod Swami, Senior Vice President & Global Head of Channels, Cognizant. “As the only provider with the distinction of being nominated in all categories, this recognition is a direct result of Cognizant’s unique approach to client service, our expertise, and our vast global resources, all of which differentiate us in the market.”
