Cognizant Completes Acquisition of Tin Roof Software, Expanding Digital Engineering Services

TEANECK, N.J., Sept. 17, 2020 Cognizant (Nasdaq: CTSH) has completed the previously announced acquisition of Tin Roof Software.

Tin Roof offers software design, development, DevOps, and delivery services for clients increasingly dependent on software for a competitive edge. Working across a range of industries, its custom solutions include re-architecting and migrating products to the cloud, building customer-facing web and mobile apps, creating APIs and data pipelines for transaction processing, and designing secure payment processing systems.

The acquisition of Tin Roof expands Cognizant's software product engineering footprint in the U.S. and connects Tin Roof's experts with Cognizant's broader global software development capabilities.
