Cognizant Brazil Ranks Among “Great Place to Work 2020”

For the fourth consecutive year, Cognizant Brazil is certified as a Great Place to Work® (GPTW) in IT, 1000+ employees, ranking 13th.

Driven by employee feedback, GPTW evaluates survey responses to determine if a company meets the criteria as a GPTW. Criteria includes a Trust Index research-backed employee survey, as well as details on programs and practices that make a company unique. If a company meets the criteria, it receives the GPTW certification. More than 80% of Cognizant Brazil associates completed this year’s survey, accomplishing the all-time high score of 88 out of 100. Cognizant Brazil was also ranked as the number one IT company for women and number three IT company for the LGBTQI+ community in 2020.

“We are thrilled to once again be named among the Great Place to Work,” said João Lúcio de Azevedo Filho, LATAM Market Head and Brazil Country Manager at Cognizant. “This award is a testament Cognizant’s commitment to our associates and their work with one another both internally and externally with our clients.”
