Cognizant Wins UiPath 2020 Americas Partner Award

Cognizant recently won UiPath's Americas Partner Award 2020 as the Industry Leader Partner of the Year.

Started in 2005, UiPath is a leader in robotics process automation (RPA). The company created the Partner Awards to recognize achievements in growth, innovation, and joint customer success. The awards highlight "partners who demonstrate consistent innovation and collaboration leading to lasting, sustainable impact on their customers' businesses."

Cognizant's intelligent process automation service line offers a full range of business process transformation solutions, including many IT and consulting services developed and delivered jointly with UiPath. Cognizant and UiPath collaborate in multiple solution development and implementation areas, accelerating digital transformation for more than 100 joint customers. One outcome of this collaboration is the Facets Automation Solution Tookit (FAST), which offers reusable, scalable and prebuilt automation, AI and analytics for claims adjudication in healthcare.

"We are pleased to be recognized by UiPath as Industry Leader Partner of the Year," said Girish Pai, Vice President, Intelligent Automation Practice, Cognizant. "Working with UiPath, we have harnessed the power of automation & AI to drive business outcomes, improve productivity and efficiency for our clients, extracting more value from existing systems and building new ones when needed. We look forward to our continued partnership with them."
