

Cognizant Achieves AWS SAP Competency Status

Cognizant has achieved [Amazon Web Services \(AWS\) SAP Competency](#) status, leveraging the AWS Migration Acceleration Program (MAP) and Cognizant® SmartMove Conversion Factory to deliver SAP migrations at scale. The AWS SAP Competency Partner designation recognizes that Cognizant has demonstrated technical proficiency and proven success in SAP implementation, migration and innovation on AWS. AWS SAP Competency Partners are certified to have the experience, tooling, methods and best practices to streamline clients' cloud migrations or transformations.

Along with increasing innovation, our SAP on AWS solutions enable our clients to scale business services, improve operational agility and enable the customer digital journey on AWS through Cognizant SmartMove, an SAP-qualified partner-packaged solution. This certification is testimony to Cognizant's successes with organizations around the world transforming their SAP ecosystems into modern digital enterprises by engineering robust, secure and cloud-based digital platforms on AWS.

Cognizant's SAP on AWS solutions have delivered deep business impact to several key clients through large transformational projects, including—but not limited to—the following:

- Reducing operational costs by up to 60%
- Significantly improving time-to-market
- Enhancing recovery of core business applications through better disaster recovery
- Improving data services jobs by 90%
- Helping customers fetch real-time data for rapid business decisions
- Enabling clients' S/4HANA digital journey among other outcomes

"Our rich experience in implementing SAP on AWS for our customers across industries has helped us become an AWS Premier Consulting partner with AWS SAP Competency status," said **Sandeep Tambaku**, Head of Cognizant's Global SAP Practice Delivery practice. "This will help us better serve customers jointly with AWS through MAP. In line with this achievement, Cognizant SmartMove, our SAP qualified S/4HANA conversion and migration factory, will help our customers with rapid deployment of S/4HANA Industry Solutions on AWS."

AWS is enabling scalable, flexible and cost-effective solutions from startups to global enterprises. To support the seamless integration and deployment of these solutions, AWS established the [AWS Competency Program](#) to help customers identify AWS Partners with deep industry experience and expertise.
