Cognizant Completes Acquisition of TQS Integration, Expands Smart Manufacturing Offerings

TEANECK, NJ, July 30, 2021—Cognizant (Nasdaq: CTSH) has completed its acquisition of TQS Integration, a global industrial data and intelligence company based in Lismore, Ireland.

TQS helps nine of the top 10 global life sciences companies enable smart manufacturing. Cognizant will combine TQS's expertise with its own to help clients transition to Industry 4.0 and expedite the production of life-changing medicines.

TQS is Cognizant's fifth acquisition in 2021, further accelerating its growth in the areas of Internet of Things, data and analytics. TQS expands Cognizant's presence in Ireland, a hub for the world's leading life sciences manufacturing experts and an ideal location for delivering Industry 4.0 consulting and services to European manufacturing clients. TQS' service solutions, expertise and thought leadership also benefit Cognizant's clients in the broader manufacturing landscape.
