

# Cognizant Named a Global Leader in Two ISG Provider Lens Reports

Cognizant has been named a global Leader in two ISG Provider Lens Reports:

- Internet of Things – Services and Solutions, IT/OT Tech Data Convergence
- Internet of Things – Services and Solutions, Artificial Intelligence on the Edge

## IT/OT Tech Data Convergence

Cognizant is ranked as the #1 service provider on IT/OT tech data convergence based on the strength of our offerings (smart operations, asset performance, supply chain, and sustainability), our proprietary OnePlant™, and APEx reference models, and our strong client relationships.

## Artificial Intelligence on the Edge

ISG rated Cognizant high on breadth and depth of our edge analytics and AI portfolio, stating, “Cognizant combines platform independent solution accelerators that can be ported across IoT platforms with a rich set of reusable libraries to accelerate customer implementations.” The report also cites our proprietary Learning Evolutionary AI Framework (LEAF™) and pre-built analytics as a service solution.

“As a preferred IoT partner to some of the biggest brands across industries, our solutions help bring physical and digital worlds together to improve everyday experiences,” said Randal Kenworthy, Global Strategy Lead – Industry+ Practice, Cognizant. “These recognitions from ISG are a testament to the work we are doing to drive efficiencies and improve customer experiences in the IoT space.”

ISG is a leading global technology research and advisory firm. A trusted business partner to more than 700 clients, including more than 75 of the world’s top 100 enterprises.
