Kramp collaborates with Cognizant to Build a Future-Ready IT Platform

Cognizant and Kramp aim to establish a cost-effective and agile IT platform to enhance operational efficiency, elevate customer experience, and drive business growth

AMSTERDAM, July 15, 2025 /PRNewswire/ -- Cognizant (Nasdaq: CTSH) announced today a new collaboration with Kramp, Europe's leading technical wholesaler of spare parts and accessories for the agriculture, forest &landscaping and construction industries, to transform its IT platform. This collaboration aims to implement a new Enterprise Resource Planning (ERP) solution that enhances operational efficiency, boosts customer experience, and drives business growth.

Based in the Netherlands, Kramp intends to transition from its legacy system to a modern, data-driven, cost-effective ERP solution. This transformation is designed to help enable Kramp expand into new markets and achieve significant business growth.

"For Kramp, this project is more than just a technical upgrade. We must remove our legacy systems and leverage this opportunity to simplify and standardize our processes and create incremental business value," said Olivier Luxon, Vice President Technology at Kramp. "We need a partner who can not only understand our ambitions but support us in this challenging journey. We chose Cognizant to help us build a digitally savvy organization because of their expertise in complex systems and customer-focused solutions. This marks the beginning of a long-term partnership aimed at meeting our business objectives."

Kramp recognized potential opportunities for further digital transformation and the integration of e-commerce, supply chain, and customer service functions. The new ERP system is designed to address these opportunities by providing a unified IT platform integrating commerce, supply chain management, warehousing, and finance. This initiative aims to transform Kramp into an agile organization, minimize customer demand response time, and enhance operational efficiency.

"We are excited to work with Kramp to make it a future-ready business," said Saket Gulati, Senior Vice President and Managing Director for Northern Europe. "The new platform is anticipated to enable Kramp to address customers effectively and meet the market's rapidly evolving demands. Cognizant emphasizes the importance of understanding foundational elements for long-term success and addressing the challenges businesses face in becoming future-ready."
