Cognizant to Present at AI Integrators Council Demo Day on Capitol Hill

TEANECK, N.J., Feb. 10, 2026 – Cognizant (Nasdaq: CTSH) today announced its participation in the AI Integrators Council (AIIC) Demo Day on February 11, 2026. The event takes place on Capitol Hill in Washington, D.C. and is designed to educate policymakers, academia and industry leaders on how AI is being adopted by businesses.

Cognizant is one of the founding member companies of the AIIC, a coalition of leading technology companies dedicated to advancing the responsible integration of AI into enterprise systems, platforms and applications. Cognizant will join fellow AIIC members including Alteryx, Atlassian, Box, Docusign, Peraton, SAIC, Salesforce, ServiceNow and Twilio to provide live demonstrations of AI solutions that drive innovation, improve efficiency and support public and private sector transformation.

Dr. Neel Savani, AI Assurance and Adoption Lead at Cognizant, will showcase Neuro® AI Multi-Agent Accelerator (neuro-san), an open-source library for orchestrating and vibe coding multi-agent AI systems, and describe how this responsible and trustworthy AI solution can help organizations achieve meaningful, real-world impact. Cognizant Neuro® AI Multi-Agent Accelerator allows domain experts, researchers and developers to immediately start prototyping and building agent networks across a wide range of industry vertical.

The upcoming demonstration also aims to reflect Cognizant's commitment to engage policymakers and stakeholders on responsible solutions as AI transforms businesses across the country and around the world.

"Through waves of disruptive technological change, Cognizant has provided our clients with the insight, skills and services they need to apply new technology, enabling them to benefit their customers and help improve everyday life," said Babak Hodjat, Chief AI Officer at Cognizant. "As a market leader in the evolution and responsible use of AI systems, Cognizant is focused on solutions that help modernize businesses as well as informing and training individuals for the future economy."
