Cognizant Earns Six SAP Certifications for Global Operations Partners, Expanding Capabilities in Security and Next-Generation SAP Operations

Among the certifications is Cognizant's first-ever in global SAP security operations, marking continued growth since earning SAP Operations partner status in 2011.

Cognizant has successfully achieved six formal SAP Certifications for Global Operations Partners, underscoring the company's commitment to delivering secure, innovative, and future-ready SAP solutions. These certifications not only reinforce Cognizant's role as a trusted global SAP partner but also strengthen joint opportunities with SAP to support clients worldwide, while further differentiating the company in safeguarding mission critical systems.

Cognizant's certifications include:

- SAP-certified in global SAP security operations
- SAP-certified in global SAP S/4HANA solutions operations and works with RISE with SAP
- SAP-certified in global SAP BTP operations and works with RISE with SAP
- SAP-certified in global SAP SuccessFactors solutions operations
- SAP-certified in global DevOps
- SAP-certified in global SAP HANA Cloud and database operations

"As enterprises prepare for the move to SAP S/4HANA and look for stronger security and operational resilience, the need for globally certified partners has never been greater," said Samrat Basu, Global Head of Cognizant's SAP Practice. "By securing all six certifications, including our first in global SAP security operations, we are reinforcing our commitment to clients who rely on Cognizant for secure, innovative, and scalable SAP solutions."

In addition to these global certifications, Cognizant also received local certifications in India, the United States, and Norway, reflecting the company's ability to deliver consistent quality and expertise across diverse markets.

Obtaining these certifications required a rigorous, multi-stage evaluation process. Cognizant's cross-functional teams collaborated globally to meet SAP's highest standards, demonstrating the company's ability to help clients transition confidently to next-generation platforms while maximizing the value of their SAP investments.

These achievements also build on Cognizant's long-standing collaboration with SAP and open new opportunities for joint go-to-market initiatives, enhanced client positioning, and expanded transformation engagements worldwide.
