

Cognizant Named Among LinkedIn Top Companies in North America, Europe, and Asia

In LinkedIn's annual ranking of top companies to work for, Cognizant was recognized in six countries around the globe. Cognizant was again recognized as a leading company in [India](#) (ranking 3rd), and the [United States](#). For the first time, Cognizant was identified as a top company in [Canada](#) (debuting in the top 10), [Philippines](#), [Switzerland](#) and the [United Kingdom](#).

These prestigious rankings validate Cognizant's commitment to its people and come on the heels of even greater investments the company has been making in its employee experience. Cognizant recently shared it spent an additional \$1B on its people in 2021, including investing more in compensation than at any point in its history, awarding more promotions, enhancing leave and benefits packages, shifting to a hybrid work model, and continuing to provide award-winning learning and development opportunities.

"Having Cognizant on LinkedIn's Top Companies lists is an honor," said Becky Schmitt, Chief People Officer. "There is an energy here created by our diverse 330,000 associates who bring their expertise, entrepreneurial thinking and heart to improve everyday lives. As we redefine what's possible through technology for our clients, we invest significantly in our people to ensure they can achieve their career ambitions and be at their best at work and at home."

The LinkedIn Top Companies list analyzes the actions of millions of LinkedIn members to rank the top workplaces for professionals to grow their careers. There are seven pillars, each revealing an important element of career progression within a company, and all pillars are based on LinkedIn data: the ability to advance, skills growth, company stability, external opportunity, company affinity, gender diversity, and educational background.
