# Cognizant's Amanda Halabi Named a 2018 Women Leader in Consulting

Cognizant's Amanda Halabi, Transformation Manager, Cognizant Digital Business, has been named a 2018 Women Leader in Consulting by Consulting Magazine.

In its 11th year, the Women Leaders in Consulting Awards aims to honor those women in the industry who stand out among their peers and make a difference within the consulting profession. Halabi was honored as a Future Leader for her tireless and innovative work on several key projects, saving significant amounts of time, money and resources for her clients.

Described by her clients as a rising star and relentless leader, Halabi also uses her role to mentor female new hires in the organization. She often hosts "dinner chats" with these new associates to discuss and map out career progression, client relationship building, and work-life balance.

"I am truly honored to be recognized as a Future Leader by Consulting Magazine," said Halabi. "In my role, I have an incredible opportunity to not only transform my clients' businesses, but also to serve and mentor other dynamic women at Cognizant. When we succeed, the organization succeeds."
