

Ordina and Cognizant Enter into Strategic Alliance

Combined strengths to drive new growth opportunities in the Benelux market

Cognizant (NASDAQ: CTSH), a leading provider of global IT and business process outsourcing services and Ordina (EURNEXT NV: ORDI), a leading Dutch IT services provider today announced a strategic alliance focused on combining Cognizant's proven global delivery model with Ordina's strong track record in delivering consulting, ICT and outsourcing solutions to the Dutch and Belgian market. This alliance will allow both companies to drive new growth opportunities while offering the benefits of global sourcing to Benelux companies focused on driving business transformation, process improvements, innovation, cost reductions, and productivity enhancements.

Under the terms of this agreement, Cognizant will become Ordina's primary strategic partner in the Benelux for offshore solutions. The two companies will jointly offer global delivery solutions for Ordina's Top 40 customers in the financial services, public, industrial and telecommunications markets.

"We are excited about this alliance because deep local domain expertise and relationship management, coupled with global sourcing and global delivery, are becoming mainstream in the Benelux IT outsourcing market," says Ronald Kasteel, CEO of Ordina N.V. "By having access to Cognizant's offshore delivery capabilities, this partnership enables us to achieve faster growth and overcome the scarcity in high-quality ICT-capacity. This alliance will also allow us to deliver high-quality, highly reliable and cost effective solutions to support the mission-critical business processes of our Top 40 clients, driving significant economic and business benefits for these organizations."

"We chose to work with Ordina because of their recognized brand and strong local capabilities in the Dutch and Belgian market," says Santosh Thomas, Vice President of Continental Europe, Cognizant. "We believe that this alliance will enable us to drive superior results for Dutch clients, as together with Ordina we can bring our joint customers a world-class powerful combination of deep local knowledge and a market-leading global delivery platform."
