

# Cognizant Placed #6 In BusinessWeek's Tech Top 50

## Firm Recognized Among Fastest Growing Global Technology Brands

Cognizant (NASDAQ: CTSH), a leading provider of IT services, today announced that the Company has been named in the top 10 of Business Week's Hot Growth Technology Companies. Cognizant ranked 6th overall and was the #1 ranked IT services Company. In determining this year's rankings, BusinessWeek evaluated companies based on sales and profit growth, total return to shareholders, return on equity, and overall sales.

"We are honored to be recognized by BusinessWeek for our track record of tremendous growth and to be named among the world's best known technology brands," said Francisco D'Souza, President and CEO, Cognizant. "This recognition is a testament to our passion to helping our customers build stronger businesses and our commitment to investing in our future growth. We are confident that our commitment to delivering greater returns on outsourcing and high levels of customer satisfaction will continue to fuel strong demand for our services and drive our growth well into 2007, while continuing to generate long-term value for our shareholders."

Cognizant's ranking among the Tech Top 50 follows the Company's #16 placement among Business Week's Hot Growth 100 in June 2006, the publication's prestigious annual ranking of the fastest growing companies across all industries. The Company has achieved Hot Growth 100 recognition five times.

BusinessWeek noted, "Name a handful of financial-services, insurance, or health-care companies, and most will probably have outsourced the management of their information technology resources to companies in India, and often it's Cognizant they call."
