

INTTRA Selects Cognizant to Drive Operational Efficiencies Across Global Ocean Freight and Ocean Supply Chains, and Provide a Uniform Experience Across Multiple Trading Partners

Global Market Leader in the Ocean Freight Industry to Streamline Applications and Business Processes, Driving Speed to Market and Predictable Delivery of Goods

TEANECK, N.J., Jan. 18, 2012 /PRNewswire/ -- [Cognizant](#) (NASDAQ: CTSH), a leading provider of information technology, consulting, and business process outsourcing services, today announced it has been selected as a strategic partner by INTTRA, a leading provider of e-commerce solutions for the ocean freight industry, to streamline INTTRA's applications and quality assurance portfolios. As part of the multi-year, multi-million dollar agreement, Cognizant will provide a range of application development, application maintenance, testing, and quality assurance services using the managed services model.

With the market demand for multi-carrier e-commerce reaching an all-time high in 2011, INTTRA reported a record-breaking 22 million container orders initiated through its e-commerce portal last year. By streamlining and standardizing the e-commerce applications, Cognizant will help INTTRA and its clients harness the benefits of operational efficiencies throughout the supply chain, improve data accuracy and business insights, enhance collaboration, and provide a uniform experience across multiple trading partners.

"The global ocean shipping industry is going through significant structural changes. Our goal is to provide the best and most useful products to our customers to help them streamline the processing of ocean freight, and optimize global ocean supply chains," said Ivan Latanision, Senior Vice President of Product Management at INTTRA. "In Cognizant, we found a strategic partner with the breadth of expertise and global footprint that would help us create products that will make a difference to our customers' process efficiencies and positively impact their bottom lines. Specifically, we were impressed with their domain knowledge, process methodologies, the managed services model, and their roadmap to help us in our transformational journey to becoming a global information provider."

"Cognizant is committed to optimizing and strengthening INTTRA's product development processes to improve efficiency, flexibility, and speed," said Tarun Anand, Vice President of the Information, Media, and Entertainment practice at Cognizant. "We will leverage our broad technology expertise and global delivery footprint to help INTTRA define new standards and benchmarks in data supply chain transformation and information services for the ocean shipping industry."

About INTTRA

INTTRA is a leading global provider of e-commerce solutions to the ocean freight industry. INTTRA professionals work with over 30 leading carriers and NVOCCs, as well as their customers, to streamline and standardize their shipping processes worldwide through a network of more than 30,000 corporate locations. Over 450,000 container orders are initiated on the INTTRA platform each week, representing more than 15 percent of global ocean container trade.
